EN LÉSIONS MÉDULLAIRES

2018-2019 OPERATIONAL PLAN

**STRATEGIC GOAL # 1:
ENHANCE CAPACITY**

INITIATIVE	STRATEGY	OUTCOME
<p>MPP Engagement Strategy</p>	<p>Launch a Peer Activist in every riding across Ontario with a relationship with their local member of provincial parliament (MPP)</p>	<p>By 2021 we will have a presence in all 124 ridings actively</p> <p>Today - we have a presence in 53 ridings</p>
<p>Expanding Peer Activists Across Ontario</p>	<p>Create an online Peer Activist Educational Module to onboard new peer activists across Ontario</p>	<p>By March 2019 we will have the product live.</p> <p>We expect to recruit 20 new peer activists by the end of the fiscal year</p>
<p>Community Campaigns</p>	<p>Develop an official campaign website: www.yourmoveontario.ca A one-stop interactive website where the SCI Community can engage decision makes in large volumes</p>	<p>Website is complete and Live</p> <p>Website will give us the ability to create campaigns for all of our priority needs</p> <p>Three community campaigns will be launched by March 2019</p>

**STRATEGIC GOAL # 2:
DEVELOP AN ONLINE RESEARCH PARTICIPATION PLATFORM**

INITIATIVE	STRATEGY	OUTCOME
<p>SCIO Research Inventory</p>	<p>Develop a template to produce summaries of existing research partners and authors with SCIO, SCI Community, and people with lived experience using integrated knowledge translation principals.</p>	<p>Inventory will provide a comprehensive awareness of research studies that SCI Community has an invested interest in</p> <p>Inventory will go live by March 2019</p>
<p>Testimonials from Research Partners</p>	<p>Profile researchers and their accomplishments to celebrate superior researchers who take integrated knowledge translation principals seriously</p>	<p>Testimonials will provide a greater understanding of the researchers who people with SCI want to partner with and will celebrate leadership in SCI</p> <p>The Platform will go live by March, 2019</p>
<p>Research Recruitment Utility</p>	<p>Develop a process around new research partnership to increase SCI community participation. This portal will be restricted to IKT partnerships and researchers who follow IKT principals. Those who follow IKT principals can utilize this recruitment utility at no charge</p>	<p>Utility will provide a higher quality of research with greater SCI Community participation</p> <p>Utility will go live by March 2019</p>
<p>Marketing Research Study</p>	<p>Provide marketing opportunities to the SCI Community to participate in research studies as a fee-for service to those who do not follow IKT Principals</p>	<p>The study will provide an outlet for researchers to recruit people with SCI to participate in research</p> <p>This process is live for \$350 per study</p>

STRATEGIC GOAL # 3: BUILD COALITIONS

INITIATIVE	STRATEGY	OUTCOME
Hold a joint Ontario SCI Alliance and Ontario SCI Implementation Network Meeting	Ontario Knowledge Mobilization Network, SCI HIGH, and the Ontario SCI Alliance will develop an in-person meeting to establish the implementation plan over the next 3 years	Produce a clear and focused plan of implementation science across all SCI dedicated acute/rehab centers over the first 18 months of sustaining a SCI Meeting will be held January 2019
Grow the All Disability Coalition	Continue to leverage the lived experience of the members of all disability community organizations to address inequities for people with disabilities in Ontario	Finalize a Terms of Reference by January 2019

STRATEGIC GOAL # 4: PATHWAYS OF CARE

INITIATIVE	STRATEGY	OUTCOME
Secure a \$6 Million investment as outlined in the 2018 Ontario Government Budget	Formally launch the oversight committee once the funding is downloaded from the Ontario Government to the Ontario Neurotrauma Foundation (ONF)	Initiate the consultation process in year 1 and begin the scientific pathway process thereafter Establish the neurotrauma pathway protocols by 2024

STRATEGIC GOAL # 5: ACCESSIBLE HEALTHCARE FOR ALL

INITIATIVE	STRATEGY	OUTCOME
<p>Develop a Virtual Integrated Platform for SCI (VIP4SCI)</p>	<p>Launch and evaluate the effectiveness of VIP4SCI with the SCI community, in partnership with UHN and develop an external evaluation framework at the end of the project to test effectiveness</p>	<p>The product will resolve distance challenges for accessing services and supports in SCI across Ontario as well as integrate community and services across Ontario</p>
<p>Develop a Physician Engagement Network</p>	<p>Recruit and Incentivise Family Physicians and inter-professional teams to join our network by advocating for accessible doctors' offices, providing information and resources, peer support and community navigation through regional service coordinators</p>	<p>Recruit 50 Family Physician by April 2019</p>
<p>Expand Mobility Clinics across Ontario</p>	<p>Work directly with Kitchener Waterloo Mobility Clinic and Center for Family Medicine to create partnerships with mobility clinics across Ontario</p>	<p>Identify 3 Mobility Clinic Sites to develop by April 2019</p>
<p>Make Doctor's Offices Accessible</p>	<p>Work with the MOHLTC and Family Health Teams to identify accessibility needs and communicate with the Ontario Government to fund them</p>	<p>We have secured funding for 3 Family Health Teams (50% cost sharing) and will continue to work with FHT and MOHLT for more accessibility funding</p>

**STRATEGIC GOAL # 6:
KNOWLEDGE EXCHANGE FOR PHYSICIANS AND SCI COMMUNITY**

INITIATIVE	STRATEGY	OUTCOME
<p>Educate family physicians on Primary Care</p>	<p>Translate evidence based knowledge and create comfortability for more family physician offices to serve people with SCI through knowledge exchange</p>	<p>Provide education credits to family physician offices in SCI</p> <p>Second education series will be completed on September 25 2018</p>
<p>Provide education on Pain Management and translate evidence based best practice guidelines for people with SCI in plain language</p>	<p>Work with Pain Specialists and the SCI Community to translate Pain Management Guidelines in a plain language format in order for the guidelines to be used more effectively</p> <p>Develop an educational learning series with OMA for Family Physician Offices</p> <p>Develop an educational online learning product on Pain Management for the SCI Community</p>	<p>Host the plain language guidelines on SCIO Website and make them available broadly for effective use</p> <p>The accredited pain management education series will be launched on OTN by December 2019</p> <p>Online product will be available by March 2019</p>
<p>Provide online education products and educational learning series on Bladder Management for SCI Physicians and SCI Community</p>	<p>Educate the SCI Community, policy makers, and clinicians on the best available evidence in bladder management; identify barriers, and opportunities for bladder management improvement</p> <p>The focus of education learning series will be on reconstructive surgeries for people with SCI in bladder management</p>	<p>The accredited bladder management education series will be launched on OTN by December 2020</p> <p>The Online product will be available by March 2020</p>
<p>Create the prevention and treatment of Pressure Injury Guide to share with family physician offices</p>	<p>Continuously promote the use of the evidence based guidelines</p>	<p>More effective treatment and prevention of pressure injuries in Ontario</p>

STRATEGIC GOAL # 7: ACCESS TO MEDICAL SUPPLIES IN ONTARIO

INITIATIVE	STRATEGY	OUTCOME
Build a Community of Interest to respond to HQO recommendations	Ensure real world challenges to accessing medical supplies in Ontario are factored in the systematic review conducted by HQO as the evidence base for intermittent catheters is small	Mobilize all medical supply users to amplify their voice and provide feedback towards HQO's recommendations to MOHLTC
Launch a #PEEFORFREE Community Campaign	This social media campaign will bring awareness to the challenges Ontarians face when they require health technologies for bladder management	Motivate the general public to join our cause
Host a Queen's Park Day	Educate politicians on the inequities of accessing medical supplies in Ontario	Inspire all MPPs and Key Stakeholders to join our cause

STRATEGIC GOAL # 8: ACCESS TO MOBILITY DEVICES IN ONTARIO

INITIATIVE	STRATEGY	OUTCOME
Table Independent Review of the mobility device sector in Ontario in front of the Ontario Government	Work with MOHLTC to address the recommendations in the review with a particular focus on limited availability of specialized seating clinics across Ontario	Achieve a policy implementation for a minimum of 1 recommendation outlined in the Independent Review
