

December 2019 – *Interim* Ontario SCI Alliance Update

The Alliance has been working really hard over the last quarter finalizing initiatives and projects within our Amplifying our Community's Voice strategic plan.

While we gear up for the holidays, the Alliance will be working on a few things:

1. Working with ONF on the renewal funding submission to the Ontario government. Submission is due on Jan. 6. Thank you many Alliance members for assisting with this submission.
2. Wrapping up our follow-up communications after Queen's Park Day with MPPs across the province. [Learn more about Queen's Park Day.](#)
3. Over the last few weeks we've been engaging the government on the potential for VIP4SCI to be eligible for physician billing, when our clients want to access their doctor virtually through the platform. [Read their announcement on digital and virtual health care.](#)
4. We are just putting the final touches on our community engagement report from the [National SCI Conference in October](#). Look out for this great piece of work from our community in January.
5. Lastly, we are working on our #peeforfree strategy. We look forward to sharing the business case in the new year.

We're excited to engage everyone in 2020. January will be a busy month as we plan the process for the new [three-year strategic plan](#) and prepare for the next Alliance meeting in April.

Happy Holidays
