

Treasurer's Report

Eleanor Evans, Treasurer
Chair, Finance & Audit Committee

It is my pleasure to report on Spinal Cord Injury Ontario's financial results for the year ended March 31, 2024.

Financial Highlights

Total revenue ended the year at \$6.953 million, up \$64K (0.9%) from the prior year. Our three main types of revenue are government funding, fundraising and fee-based revenues.

For the year, government funding totaled \$4.390 million which is approximately 63% of the total revenues. The government funding we receive helps to support service delivery such as peer support, provincial navigation services, knowledge exchange and Toronto based employment programs.

Donations and public support grossed \$1.01 million, a decrease of 6.5% from prior year. The organization struggled to meet the net targets set in current year for fundraising, mainly due to challenges with events, Sponsorship and Foundation supports that negatively affected fundraising. Fundraising revenue helps support our non-government funded areas, such as advocacy as well as underlying functions such as marketing, communications, and administration.

Another source of revenue represents grants from the Ontario Paraplegic Foundation, a charitable foundation controlled by SCIO. The Foundation provides grants to SCIO for strategic initiatives or when we face financial challenges. Conversely, it receives funds from SCIO when we have a financial surplus. This year, total grants from the Foundation stood at \$1.490M which was up from prior year's \$1.334M. Foundation funding was used to support digital marketing development, public policy enhancements, IT infrastructure changes and an operating grant.

Funds in the Foundation are invested and monitored carefully throughout the year. For the year ended March 2024, the foundation experienced a return on investment in the amount of 8.15%. The Foundation closed the year with a balance of \$5.911 million.

SPINAL CORD INJURY ONTARIO

SCIO's expenses for the year totaled \$6.952M, of this \$4.383M (63.1%) was dedicated to delivering programs and services. The balance of the expense was associated with administration, resource development and communications.

The organization ended the year with a small surplus of \$793.

The statements have been prepared by management, were reviewed and approved by the Finance and Audit Committee and the Board of Directors and have been audited by Grant Thornton LLP.

The complete audited statements are available on our website.

Looking ahead

Our mission is to deliver and champion excellence in service, support and advocacy for people with spinal cord injury. We work directly with clients and their families and we are grateful for the government funding that we receive but we are determined to expand our reach so we can accomplish even more. However, our three main sources of revenue are not without risk – risk of government funding not being renewed, interest rate risk, and a slowed economy could all impact our financial success. We will remain focused on how best to use SCIO's limited financial resources in the year ahead. I would like to thank each and every donor for financially supporting SCI Ontario during the past year.

I would also like to thank all of our volunteers, members and employees for your generosity and support to our organization. We simply couldn't be successful without you! Peer to Peer. Strength to Strength.
